

# RIGHT RISK™ Roundtable Series

The USDA's Risk Management Agency and RightRisk invite you to learn strategies for better managing risk in your operation. Participate in a *Roundtable Series* to discover the right level of risk for you via this interactive workshop

- 
  - Discuss and identify challenges and opportunities, as well as issues critical to farm businesses success in Alaska.
  - Explore strategies available for improved risk management.
  - Identify resources available to farm business managers.
- 
  - Risk Scenario Planner – A tool for evaluating alternatives for your farm using a partial budgeting framework.
  - Participants will interact in a dynamic presentation to provide the details needed to describe at least one important management decision.
- 
  - Additional presentations will be offered as time allows addressing management issues identified via the Roundtable Discussion.
